The Secretary to the Government of Bombay; P.W.D. (Irrigation); B o m b a y.

Ref.No. ~~KKN~~/ MUN/ 225.

Gadag 21st. Sept. 49.

Sir,

Sub:- The Gadag Electric License, 1936; Hours of supply:

While acknowledging the receipt of a copy of your letter No.3819/36-El (II) dated 10-9-49, addressed to Messrs. Manvi Brothers Electric Light & Power - Suppliers Gadag, Dist, Dharwar, on the subject, we note with pleasure that your Govt, in response to the public demand, called upon the said Licensee to immediately instal an additional A.C.Set of 100 K.W, to supply energy to the public for full 24 hours.

2. Further we would like to request the Govt to see that an additional set is duly installed by the Licensee, who (we are afraid) is likely to ignore to carry out the orders of the Govt, on some pretext or the other. M/s. Manvi Bros, who are suppliers of electric lights & energy to the local Municipality, have been indefinitely postponing, for some reason or the other, to instal the electric lights on the public-cremation ground and on the road there to, although the scheme has been sanctioned long ago. From our experience in the past we feel diffident whether the Licensee would carry out the Govt-order promptly. We sanguinely hope that the Govt-order shall not prove a mere dead-letter.

We shall be glad to know the progress made from time to time, in respect of the installation of an additional set.

Yours faithfully,

G. J. Navali

President.

No. LRM.7/ 7725 of 1949.

Bombay, 21st December 1949.

Returned, with compliments.

2. The matter was inquired into at site and it is observed that the cremation ground referred to by the President of the Citizen's Welfare Association lies outside the licensee's area of supply. The licensee is, therefore, neither expected nor authorised to lay electric supply lines to that place, until the license is amended to include additional portion covering the cremation ground, or in the alternative the licensee is authorised specially under section 27 of the Indian Electricity Act to supply energy to the premises referred to above. The necessary proposal will have to come, in either case, from the licensee himself.

Sir-

Sub:- The Gadag Electric Licence, 1936;
Hours of supply.

With reference to and in continuation of our letter No.MUN/225 of 21-9-49, we are sorry to hear nothing from you on the subject. It is very very strange that the Govt, should allow so much of indulgence to the Licensee, and ignore the grievances of the public for years.

2. In this connection, we enclose here with a copy of the letter addressed to the Honourable Minister to the Govt. of India (Information & Broad Cast Dept), requesting him to arrange for the supply of electric-energy for full 24 hours. Adverting your attention to para 4 of that letter, we request you to see that the electric-energy is being supplied, at least during the partial hours of the day, as stated there in, until the Licensee undetakes to contemplate the supply of energy for full 24 hours, as already ordered by you.

3. The public of Karnatak, Gadag in particular, is anxious to know what action your Govt, will take in the above proposals.

Soliciting immediate action and favour of reply. Thanking you.

(Encl. 1.)

Yours faithfully,

G Navali.

=======

No.IRM.7/ 1990 of 1950.

Bombay, 18th May 1950.

Returned with compliments.

2. The Supply Company has at present four diesel engine D.C. sets installed in the power house namely No.1 of 105 B.H.P. No.2 and 4 of 150 B.H.P. each and No.3 of 160 B.H.P. Thus the smallest set is of 105 B.H.P. diesel engine driving 60 K.W. Generator which can take safe load of 40 K.W. due to its being very old.

3. The total connected load of the station is 335 K.W. for lighting and 32.3 K.W. for power. The safe loading capacity of the station is 206 K.W. and the peak load is 182.4 K.W. To meet the peak load demand, the licensee has to run all the four old sets without any spare. The sets being very old and genuine spare parts not being easily available, the sets have to be used with caution. If any set developes trouble, some of the peak load will have to be cut off, thereby causing inconvenience to certain consumers.

4. At present the station is put in commission from 6 p.m. to 6 a.m. The station load from 6 A.M. to 7 P.M. is hardly 10 K.W. which is too small for any of the sets and uneconomical.

5. There are about 60 radios in the town mostly in Tea Shops and if the day load is to be given, the load is too uneconomical to expect any reasonable return, ~~xxx~~ uneconomical to run any of the present sets. Besides sets being too old, if they are run longer, there is a great possibility of development of fault in some set which will result in the inconvenience at the peak load period, when all the sets are required to be run. Secondly the repairing period of the set will be shortened if the set is run during day time.

6. It is suggested that the Licensee may be asked to provide a small generating set of 15 K.W. or so and give supply to the whole town for 24 hours.

7. It was not possible for the Electrical Sub Inspector, Dharwar to contact the President Citizens' Welfare Association at the time of his enquiry and investigation as the latter was out of the station and was not likely to return for a week.

Subject;- Hours of Supply at Gadag.

Sir,

We are in receipt of your letter No.3819/36-El.(II) dated 26th May 1950 in connection with the above subject and we have to state that on consideration we find that it will not be economical proposition to install a small 15 K.W. A.C.set, when our entire system is D.C.

The Necessary materials where as well as the A.C.sets are not at present readily available at Market and we therefore propose to install a small D.C.Set of adquate capacity without disturbing the existing system of supply, and we hope the Government will have no objection in the matter.

In this connection we beg to point out that from the Engineers of the Grid Department we understand that the supply from Joga Falls is likely to be made available to us from the year 1953 and in view of the position it will be futile to incur any unnecessary expenditure on ~~installin~~ installing the A.C.Set by partly ~~xxxxx~~ converting the D.C.System into the A.C.one. On hearing from you in the matter we will make immediate arrengements to secure the necessary set.

Yours faithfully

THE CITIZENS' WELFARE ASSN. 25
POST:-GADAG. (Dt. DHARWAR.)

Letter.

No. GEN/187 dated, 7th. Dec. 50.

To,

The Under Secretary to the Govt. of Bombay;
Public Works Department.
Bombay.

Sir,

Sub:- Electricity:- supply of hours at Gadag.

With reference to your letter No. 3819/36-El. (II), dated 26th May 1950, addressed to M/s. Manvi Bros, Gadag and copied to us, urging the Licensee to provide a small generator set of 15 KW, for the supply of energy for full 24 hours, we feel extremely sorry to find no attempts to have been made by the Licensee to carry out the suggestions of the Government, although he was specifically requested to report the action taken by him within a month from the date of that letter.

2. In this connection, we would like to invite your attention to the letter No. Eng. XXVII/4512, dated 3-2-1950, addressed to the Govt. of India All India Radio, (which was copied to us) by the Station Engineer Dharwar, requesting the Government to insist on all the Licensees of Electric Companies for the supply of energy for full (24) hours, as required by the Electricity Act.

3. It would not be out of place to mention here that "Gadag Pharmacy" - Druggists and Chemists at this place, who possess a Refrigirator to preserve certain drugs, do nece - ssarily require the electricity for full 24 hours. He will be penalised under the law, if he fails to preserve the Drugs in the Refrigirator. A representation for the supply of ebergy for full 24 hours has also been made through the Medical Department.

4. Doctors who possess X'ray and Violet-rays Apparatus, and other members of the public keeping Radios & fans etc, have been bitterly complaining against the NON-SUPPLY of energy for full 24 hours. It is really a pity & a surprise to know that the Govt, is altogether turning a deaf-ear to the genuine & long standing grievances of the public, and - fails to insist on the Licensee to supply energy for full 24 hours as per Law. However we request you to somehow - arrange to get the energy for full 24 hours, before the end of March 1951. Otherwise, we feel rather constrained to - mention that the public will have to proceed as the Law requiresx.

Soliciting an early favour of action and a reply there to.

Yours faithfully,

P. S. Manvali

2. The licensee has not so far taken any steps to instal additional generating set. From inquiries made, it is understood that the licensee is unwilling to invest in any more sets, as he expects that the bulk supply from Jog will be given to Gadag in the near future. It will not be desirable to allow the licensee to wait till the supply from Jog is made available at Gadag and it is, therefore, suggested that the licensee may be asked to make immediate arrangements to instal an additional small D.C.set to take up the night load and also an A.C.set to meet the additional demand from the public.

Subject:-Hours of Supply at Gadag.

Sir,

With referance to your letter No.3819/36-El(II) 15th July 1950, we have to inform you that the installati of additonal D.C. Set of 15 K.W. was intended to make the supply available during the day-time and not to meet th load as stated by you. In this connection we have to that in keeping with Government instructions to C D.C. into A.C.. We have already made arrangement the two A.C. Generating-sets, one of 100 K.W. and 48 K.W. in furtherance of the scheme of ~~xx~~ conversio propose to start the work as early as possible.

In view of this proposed conversion it will nei be advisible nor economical to install a small D.C.Set of K.W. to run by the day time as advised by the Government. soon as the conversion is completed the small set of 48 K. which is being secured by us will be run during the day t to take up the samll load.

In the above circumstances and also the fact t the supply from"Jog Falls" is expected sometime in 195 will not be a proper proposition to make a futile inves in purchasing a small D.C. set now and to scrap it af the conversion is completed.

We therefore request that the Government may be pleased not to insist upon in installing the small D.C.Set

THE CITIZENS' WELFARE ASSN:
POST:-GADAG. (Dt. DHARWAR,)

No. GEN/325 Dated, 4th Oct. 51.

To,,

The Under Secretary to the Govt. of Bombay;
P.W. Department. B o m b a y.

Subject:- Hours of supply, at Gadag.

Sir,

With reference to your letter No. 3819/36-L, of 15-5-51, we have the pleasure to note that the Licensee, has been advised to erect 2. A.C. sets, for the supply of - energy, as demanded by the Public.

2). Advterting your attention to the last sentence of para 1 of your said letter, viz - " In the circumstances it is expected that whole night supply will be available - shortly"- we are surprised to observe that there is no propriety in assuring the supply for the whole-night, in as much as, we are already getting energy for the full period of night. As the Consumers desired to get energy even during - day-time, we agitated for the supply of energy for full - twenty-four hours, i.e. for the whole day & night.
We doubt that there is some mistake in typing your said letter.

3). However we shall be glad to get clarification on the above, and we are eager to know the date from - which we shall be able to get energy for full (24)hours, under the newly erected A.C. Sets.

Soliciting an early reply & thanking you.

Yours faithfully,

URGENT, Please.

======

No. LRM.7/ \\\\9 of 1952.

Bombay, 8/1 December 1952.

Returned, with compliments.

2. It has been ascertained that the two additional generating sets have not yet been installed and the Supply Company is unable to give the likely date by which the sets would go into commission. However, the following progress with regard to the work of installing the sets was observed:-

(1) Erection of one 250 B.H.P. and one 112 H.P. diesel engines on cement concrete foundation has been completed.

(2) Foundation work for the two A.C.,400 volt generators has been completed.

(3) The first floor of the power house has been completed to house the main A.C.switchboard.

3. It is, therefore, suggested that the Supply Company may be asked to inform Government of the exact date when the work of installing the sets is likely to be completed and the sets are likely to be brought into commission.

Urgent

From:-
Shri Gopalrao Navali;
Pleader;
PRESIDENT, Citizens' Welfare Association; GADAG.

No. GFN/ 179 Dated, 17-5-52.

To,
The SECRETARY,
to the Govt. of Bombay;
P.W.D. (Secretariet).
BOMBAY. No.1.

Sub:- Hours of Supply; at Gadag.

Dear Sir,

With reference to your letter No.3813/36-L. of 23rd January 1953, stating that 24 hour supply will be made available, as soon as 2 A.C. Sets are erected, we feel very - very sorry to note, that no serious attempts are being made to supply the energy day and night, although the public has been continuously clamouring for the same since 1947.

2. Many a time, we have brought it to the notice of the Govt, that the Licensee, is a man to resort to all dilatory tactics and manoeuvre to postpone the supply indefinitely, on some pretext or the other. The very fact, that he has not duly complied with your order No.3813/36-(C) dated 1-4-1949, by - erecting a new A.C.Set of 110 k.w. is a clear proof, of his attitude. It is really a surprise that the Licensee should be indulged in showing so much of leniency, in allowing an - indefinite period for carrying out the orders of the Govt, especially in a matter where the Law compels the Licensee to do a certain thing in the interest of general public. !!!

3. It is further learnt that the Govt is cotemplating a scheme for the supply of energy from JOG FALLS. We cant say how long it takes. Mean while we are afraid that M/s.Manvi are likely to be tempted to differ from supplying the power under the A.C.Sets, on the plea of getting energy from JOG.

4. However the public is very anxious to know, from what exact date the energy will be supplied for full 24 hours? We request you to ascertain the exact situation, by a special inquiry, and inform us the definite position, & exact date of supply. Thanking you much in anticipation.

Please treat this URGENT

Yours faithfully,
G.N. Navali
President.

'Below U.O.R. No.3819/36/99547, dated the 5th N
1952, from Government in the Public Works Department,

No.LRM 7/ 14673 of 1953.
Bombay, 12th January 1953.

Returned with compliments.

At present both A.C. and D.C. supply are given at Gadag. The 4 D.C. sets in the old Power House are old and require frequent repairs. There are 3 A.C. second hand sets installed in the new power House with the capacity of (i) 100 K.W. (ii) 48 K.W. (iii) 25 K.W. each.

Out of the three A.C. sets the 48 K.W.A.C. generating set was put into commission on 13-10-1952, to take the load of one feeder C but it failed on 22-10-1952 due to the breaking of the Main shaft between the oil engine and the alternator. An extension shaft is being provided, with a new bearing and the set is likely to be put in service this month.

In the meanwhile the load of 40 K.W. of feeder C is being taken by the 100 K.W.A.C. set.

There are in all seven feeders which transmit the elec. energy radiating from the Power House.

Feeder	A :-	Betigeri.
-do-	B :-	Railway Station.
-do-	C:-	Chawdi and Post Office.
-do-	D :-	Area beyond Chawadi.
-do-	E :-	Power House.
-do-	F :-	Bazar.
-do-	G :-	Railway station extension and kachery.

The municipal street lights are controlled by independant switches mounted on poles on each feeder and no separate feeder exists for same.

A.C. supply was commenced in Gadag on 13-10-1952 and part of the load (40 K.W.) on feeder C for Chawadi and post office area is being supplied with A.C. with effect from that date. The Supply Company further intends converting the feeders nos.A.B.G above on A.C. supply no sooner Railway permission is obtained from the Regional Engineer Southern Railway Mysore. It is necessary to draw one additional B.C. wire for the neutral across the railway lines. Plans showing the additions have already been submitted to the Railway authorities for approval. This permission is likely to be received in about a month's time.

P.T.O.

16

These three feeders A.B.& G run on common poles and as such the Supply Company proposes converting this side to A.C. supply in preference to the other area fed by the feeders C.D. and F. It is stated that the Betigeri line of which feeder A is a part, is 2 miles long and with a view not to have a large voltage drop it is proposed to change over this side to A.C. supply for which the Railway permission is awaited. It is however not possible to report when A.C. supply could be made available for the 24 hours at Gadag as one area will be fed by D.C. with the old generating sets whose life is uncertain.

The Supply Company was unable to give any definite information in this connection.

Subject: - Hours of supply at Gadag

Sir,

With reference to the concern ending with your letter No. GEN/274, dt. the 23-12-52 on the subject noted above, I am directed to state that enquiries reveal that A.C. supply was commenced in Gadag on the 13-10-1952. It is not however possible to report when A.C. supply could be made available for the 24 hours at Gadag, as one area will be fed by D.C. with the old generating sets. The supply to is however taken the necessary steps for converting the major portion of the area

LETTER. No. Gen/ 37 THE CITIZENS' WELFARE ASSN.

REMINDER Dated:- 19 NOV 1952 POST:-GADAG. (DI. DHARWAR.)

Sir, Sub:- Hours of Supply, at Gadag.

With reference to our letter No. Gen. 179 of 17-5-52, and also your reply No. 3819/36/96099-L, of 17-10-52, we feel sorry to know that the matter is practically kept "SINE DIE". The agitation was started in 1947, since them the Govt, has been sending out a ~~xx~~reply to the effect that the matter is under consideration. We hope that the supply of energy for 24 hours is a legitimate right claimed by the public. If the Govt, fails to comply with the legal provision the Public will have no other alternative, but to proceed in a court of Law. Please note and expedite an early reply. Thanking you. Yours faithfully,

G Mavali President.
